

Historic street names at Essendon Fields - Fairfax Community Network 30/5/07

New streets within the Essendon Fields business precinct will honour the airport's designer, a pilot and the area's historic name. Neither 'Bill' Bradfield, who designed Mascot and Tullamarine airports, will have a street dedicated to him, as will aviator Amelia Earhart. Another will be named St John's Drive after the 19th-century name for the area, St John's Field.
